

Canvas Help Guide A step-by-step visual guide for creating your Canvas Courses

This guide discusses very quickly how to start creating content in Canvas. Included in each step is a quick video about showing each step. To learn more about each step, please view the sessions recorded by our Canvas trainers for more detailed instructions. To view the quick videos, click on the thumbnail included in each step.

CREATE A WORKROOM

The workroom is where you build all of your content, so create a workroom for each different course (not sections) that you teach, including honors.

All Courses		1	Create a Workroom	
+ Course Course	Nidmane	Term	Envolled as	Published
₫ 411.0f.CTE150416		Forever	Student	Yes
ALCA:MSession1CohortC		Forever	Student	Yes
* • TRN - Recording School Professio	nal Learning 1563	PL20-21 (Full Year)	Student	Yes
TRNG - Carvos "Controllor" Training	60101BlendED	Forever	Student	Yes
* • TRNG - Canvas Teacher 111		Forever	Student	Yes
* TRNG - Secondary Visual Arts - H	um - 20-21	PL20-21 (Full Hear)	Student	Yes

CONNECT GOOGLE DRIVE

Connecting your Google Drive to your Canvas classroom gives you access to all of your files saved to your Drive, including images, video files, lesson plans, and presentations that you can then add to pages and assignments.

Gosts		() Charac Have Page

Discery Studies		
atting .		Course Dat

CREATE A MODULE

Modules group together content into blocks. These can be organized by week, units, standards, books, etc. You can decide what works best for you.

ADD PAGES

Pages are where your content live. Pages can contain text, or can link out to other resources, or can include video links. Do not use pages for assignments.

	n to Module 1			,
Add Page		factule 1		
[New Page	nge yne want is annef ste with this modul e]	k, or add a new page by scienting	New Pagel	
Home Page				_
The search age				
The stage				
That is a second s				
	Home Page			

ADD AN ASSIGNMENT

Assignments are tasks students submit for grades. Assignments can be set to open at set times, have due dates, can include peer reviews, and can be set to meet individual student's needs and accommodations.

7400 10011	to Module 1		
Add Anig	went	to Module 1	
[New Accip Assignmen	65		
Caloring	hctivity		
	Don't Indent	Ŷ	

EDIT CONTENT

After you add pages and assignments, you have to add content to them. You can add images, hyperlink material, and add videos to both pages and assignments. Assignments have unique settings that can be changed and modified for students and grading.

ilen > Pages > Color Theory	CC5D
iew All Pages	S Publish Sejit C: Immersive Reader
Color Theory	
Previous	Not*
	Course Chat

CREATE QUIZZES

Quizzes are a great tool for formative and summative assessments. Quizzes can be created with question banks, and if question banks are utilized, quizzes can be randomized for students.

Mar Talanta - Handa -	Add Item to Module 1		
Indentation, Don't Indent, w	Discussion Text Header Externel URL		n holgement.
	Indentation: Don't Indent	v	

ARRANGE CONTENT

After building your content, arrange content so that modules, pages, assignments and quizzes appear as you want students to work through them for each class.

* Module 1		0 + 1
P Home Page		
E Seler Theory		0 []
12 Color Quiz		0 1

IMPORT INTO CLASSES

Now that you have finished your content, you can import your Workroom into the sections created by the district. You can import an entire course or specific content.

PUBLISH CONTENT

After you import your content into your courses, you can publish modules, pages, assignments and quizzes manually so students can't work ahead.

ANNOUNCEMENTS

Announcements are a great place to post important information for all students to see, similar to using a forum to mass email a group of students at once.

DISCUSSIONS

Discussions allow students to share feedback and insight on work that can be viewed and commented on by other students for a grade.
