

THRIVING SCHOOLS PROFESSIONAL LEARNING

A CHARACTER-FOCUSED APPROACH TO CULTIVATE HEALTHY SCHOOL AND CLASSROOM COMMUNITIES.

Cultivate a Thriving Schoolwide Community

Thriving Schools Professional Learning is an online asynchronous and synchronous experience for school leaders, teachers, and staff to support school leaders, teachers and staff in creating thriving school and classroom communities using a Character-Focused Approach.

Program Outcomes

Education leaders, teachers, and school staff will gain valuable resources and practical application tools to:

- Positively impact all areas of student success and learning.
- Increase the well-being of teachers, students, and all members of the school community.
- Retain teachers and staff by cultivating a healthy school community with a Character-Focused Approach.
- Create a healthy learning and working environment where all individuals feel a sense of belonging; where they are seen, heard, valued, and supported to thrive and reach their fullest potential.
- Promote a healthy school climate using a wholistic and sustainable approach to character development, social emotional learning, and inclusive school culture.

WGU's Thriving Schools Professional Learning Program

This online professional learning experience includes:

- Four Micro-Credential Courses. One-year unlimited online access. Self-paced, self-service with award badges and a culmination certificate (15 CE professional development hours per course, 60 total).
- Quarterly Online Convenings. Four 2-hour live online meetings to connect and deepen learnings with colleagues in the program (8 professional development hours).
- Network. National online community to network, share ideas, and collaborate with colleagues.
